Please remember that at least 60 days notice must be given to terminate annual leases. Annual leases that have been changed or have defaulted to month to month require notice to be given at least 15 days prior to the end of any monthly period. If notice of tenancy change is not submitted, lease will automatically default to month to month with the increase in rent as described above. Failure to give proper notice before vacating will result in additional rent and fees being charged. Please see your lease for specific details.
